| 23. Problem: (use additional Sheets if necessary) Legato NetWorker is expected to reach end of life (bug support) for current version by 4th quarter 2003. Must install and checkout new version -- Legato NetWorker 7.1 -- to get bug fix support and several new enhancements. Legato NetWorker will be upgraded to version 7.1 on Unix, Windows and Linux operating systems. Legato NetWorker 7.1 must be evaluated in the PVC and VATC before it can be delivered to the DAACs. | | | | | | |
| 24. Proposed Solution: (use additional sheets if necessary) 1) Download Legato 7.1 software from ftp://ftp.legato.com/pub/eval/2003Q3/nw71_solaris_32.tar.gz 2) Install and configure the Legato NetWorker server on p2ins01 (PVC) and t1mss02 (VATC) 3) Install and configure the respective clients for Unix, Windows and Linux (see where used report attached) Note* Install Linux 7.3 with Legato NetWorker 7.0 (because NetWorker 7.1 does not support Linux 7.3) | | | | | | |
| 25. Alternate Solution: (use additional sheets if necessary) None | | | | | | |
| 26. Consequences if Change(s) are not approved: (use additional sheets if necessary) Will no longer be able to obtain bug fix support; risk that this critical COTS software will not function as the OS and hardware are upgraded in ECS. | | | | | | |
| 27. Justification for Emergency (If Block 15 is "Emergency"): None | | | | | | |
